

## 单针平缝机型号说明 / Model Description of Single Needle Lockstitch Sewing Machine

## 双针平缝机型号说明 / Model Description of Double-Needle Lockstitch Sewing Machine

### 规格 Specification:

- SP-842D 双针电脑直驱自动切线平缝机
- SP-842DDouble-Needle Computer Direct Drive Automatic Thread Trimmer Lockstitch Machine
- SP-872D 双针电脑直驱大旋梭自动切线平缝机
- SP-872D Double-Needle Computer Direct Drive Big Hook Automatic Thread Trimmer Lockstitch Machine
- SP-842C 双针直驱平缝机
- SP-842C Double-Needle Direct Drive Lockstitch Sewing Machine
- SP-872C 双针直驱大旋梭平缝机
- SP-872C Double-Needle Direct Drive Large Hook Lockstitch Sewing Machine

- SP-845D 双针电脑直驱自动切线角缝平缝机
- SP-845D Double-Needle Computer Direct Drive Split Needle Bar Lockstitch Sewing Machine With Automatic Trimmer
- SP-875D 双针电脑直驱大旋梭自动切线角缝平缝机
- SP-875D Double-Needle Computer Direct Drive Large Rotary Hook Split Needle Bar Lockstitch Sewing Machine With Automatic Trimmer
- SP-845C 双针直驱角缝平缝机
- SP-845C Double-Needle Direct Drive Split Needle Bar Lockstitch Sewing Machine
- SP-875C 双针直驱大旋梭角缝平缝机
- SP-875C Double-Needle Direct Drive Large Hook Split Needle Bar Lockstitch Sewing Machine

## SP-H5 series

### 电脑平缝机 Computerized Lockstitch Machine

腔体长度 305mm, 超大操作空间, 西服、棉服、羽绒服及小模板等缝制面料都能轻松顺畅;  
Throat Length is 305mm, providing an extra-large working space, enabling smooth and effortless sewing of fabrics such as suits, cotton garments, down jackets, and small templates.

### 性能优势:

H5 系列电脑平缝机为平板式机体, 采用计算机控制系统用单直针刺料、连杆挑线, 旋梭勾线, 下送料结构; 实现自动调速、自动停止、自动停针位、自动剪线、自动抬压脚、自动计数、自动倒顺缝、自动加固缝及慢启动等功能。减去倒缝扳手, 采用步进电机驱动倒缝及针距, 倒缝无声且线迹完美, 针距精度到 0.1mm, 锁定针距调节功能, 避免随意调节针距; 超大的操作空间, 缝料输送更顺畅; 根据服装工艺要求, 选择不同花样线迹缝纫, 且可自行编辑所需花样, 给你时尚美观的线迹;

### 适用范围:

主要用于薄料针织、内衣、衬衫、制服等, 厚料用于各类运动服、牛仔服、时装、大衣、鞋帽、皮仔、箱包等。

### Advantages

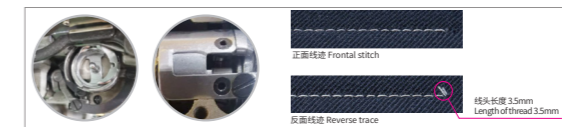

The H5 series computerized lockstitch sewing machine features a flatbed design and utilizes a computer control system. It uses a single straight needle for material stitching, with a connecting rod thread take-up and a rotary hook thread loop structure. It incorporates functions such as automatic speed adjustment, automatic stop, automatic needle position stop, automatic thread trimming, automatic thread wiper, automatic stitch counting, automatic foot lift, automatic reinforcement stitching, and slow start. By eliminating the need for a reverse sewing lever, it employs a stepper motor to drive the reverse sewing and stitch length adjustment, resulting in silent and perfectly formed reverse stitches. The stitch length accuracy reaches 0.1mm, and there is a lock function for stitch length adjustment, preventing random changes in stitch length. The machine provides a spacious working area, ensuring smooth fabric feeding. It allows for sewing various decorative patterns and allows users to edit their desired patterns, providing stylish and aesthetic stitch lines.

### Application

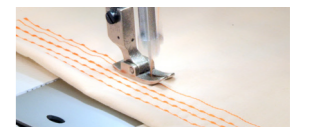

The machine is primarily used for thin knitted fabrics, underwear, shirts, uniforms, etc. For thick fabrics, it is suitable for sports apparel, denim garments, fashion garments, coats, footwear, leather goods, luggage, and more.

**针距精准 Precise Stitch Length**  
步进电机控制针距, 精度 0.1mm, 可根据工厂需要, 锁定针距调节功能, 避免误调;  
Stitch length controlled by a stepper motor, with an accuracy of 0.1mm. It features a stitch length lock function, allowing for precise adjustment according to factory requirements and preventing accidental changes.

**双刀剪线 Dual Knife Thread Trimming**  
双刀剪线机构, 线迹美观线头短, 不用剪线头, 缝制结束线头在 3.5mm 内;  
无: 单刀剪线 (标配) None: Cut cables with a single knife (standard)  
S: 双刀剪线 (选配) S: Cut the wire with two knives (optional)  
Trimming mechanism ensures neat thread trimming and short thread tails. There is no need to manually trim the thread tails. The thread tails are kept within 3.5mm after the sewing process is completed, resulting in a clean and tidy finish.

花样缝纫 Pattern sewing

机针 Needle	DB×1 11#-18#	自动剪线 Automatic Thread Trimming	★
最大针距 (mm) Maximum stitch length	5	自动抬压脚 Automatic Lift of Presser Foot	★
抬压脚高度 (mm) Lifting Height of Presser Foot	5/11	净重 / 毛重 (Kg) Net weight/gross weight	42/50
最高转速 Maximum speed sti/min	5000	包装尺寸 (mm) Package size	730 × 310 × 610
马达 motor	550W		

# SP-842D /8720Dseries

双针电脑平缝机  
Double-Needle Computerized  
Lockstitch Machine

电脑直驱款 SP-842D/SP-872D 标配自动剪线、自动倒回缝、自动扫线功能；  
Computer direct drive model SP-842D//SP-872D Standard-equipped with Automatic Thread Trimming, Automatic Reverse Stitching, and Automatic fastening stitching Functions.  
简易直驱款 SP-842C/SP-872C  
Simple direct drive SP-842C/SP-872C

## 性能优势：

电脑双针缝纫机采用计算机控制系统、交流伺服电机直驱，具有自动调速、停针位、剪线、计针数、倒顺缝、加固缝等功能。

1. 驱动轴采用 850W 交流伺服电机直驱形式；
2. 针杆和挑线杆采用微油或油脂润滑；
3. 具有自动剪线功能、自动扫线功能、自动倒缝功能；
4. 机头内部上下轴传动采用同步带机构形式；

## 适用范围：

适用于衬衣、休闲装、茄克衬、牛仔装、羽绒服等，风衣的下摆、棉衣的袋盖、帐篷及汽车内饰等需要双线锁式线迹缝纫。

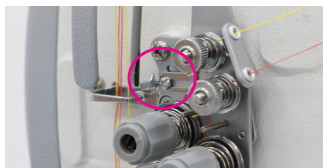

## Advantages

The computer double-needle machine shall adopt computer control system, AC servo motor direct drive, and have the functions of automatic speed regulation, needle stop position, thread trimming, stitching counting, reverse sewing, reinforcement sewing, etc.

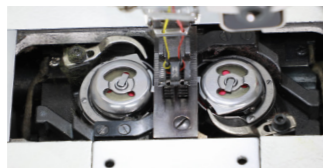

1. The drive shaft adopts the form of 850W AC servo motor direct drive.
2. Needle rod and take-up rod are lubricated with less oil or grease.
3. With automatic thread trimming function, automatic thread sweeping function, automatic reverse sewing function;
4. The transmission of the upper and lower shafts inside the machine head adopts the synchronous belt mechanism;

## Application

It is suitable for shirts, casual wear, jacket lining, denim, down jacket, etc. The hem of windbreaker, pocket flap of cotton coat, tent and car interior, etc.

通过调节挑线杆的线量，对应从薄料到厚料的缝制。通过最佳的设定，可以对应各种面料。By adjusting the thread tension of the thread take-up lever, you can achieve stitching results that correspond to various fabric thicknesses, from thin to medium-weight fabrics. By finding the optimal settings, the sewing machine can adapt to different fabric types effectively.

双直刀剪线机构反应速度快，在更换针位时方便剪线调整，使用粗线时效果特别明显。The direct knife thread trimming mechanism offers a fast response speed, making it convenient for adjusting thread trimming when changing needle positions. It is particularly effective when working with thicker threads.

通过在操作盘上简单的数字设定，可以调整缝纫速度、设定上下停针位，计算已缝制的针数作为生产计数器使用等各项功能。You can select different decorative stitch patterns according to the sewing process requirements. Additionally, you have the option to customize and create your own desired stitch patterns. This allows you to sew with stylish and aesthetically pleasing stitch lines, adding an attractive element to your sewing projects.

小油箱密封，避免粉尘线毛进入机腔内，清洁耐久，便捷搬移，不撒油；The small oil reservoir is sealed to prevent the entry of dust, lint, or debris into the machine chamber. This design ensures cleanliness and durability, making it convenient for transportation without any oil spills.

型号 Model	-403/-405	压脚上升量 Lifting height of prsser foot	7mm
用途 Application	中厚料 / 厚料	马达 Motor	AC 伺服马达 850W
